Beneficiary information

Designating beneficiaries for your life insurance coverages is a critical step when enrolling in CAEselect. Beneficiaries are designated online. Once you make your beneficiary designations, they become effective immediately as no paper forms are required to be submitted. Signing into the Group Insurance program from CAE Benefits website with your unique credentials is your electronic signature.

You can change your beneficiary designations at any time. Please note that irrevocable beneficiary designations cannot be changed without the written consent of the current beneficiary.

Allocate your CAE select dollars to a RRSP and/or a TFSA

If you decide to allocate your unspent CAEselect Dollars to the CAE Group Registered Retirement Savings Plan (RRSP) or the CAE Group Tax-Free Savings Account (TFSA), you must open an account with Desjardins Insurance (on line). You have to complete the enrollment within 31 days following the date you became eligible under the Plan. If you do not do so, you will not receive any reminder or notice and your CAEselect Dollars will be deposited in a Health Spending Account (HSA). All the information on how to open a RRSP and/or TFSA account with Desjardins Insurance is on the CAE benefits Website.

When can you make changes?

First, you must enroll in CAEselect within 31 days of the date you are eligible to the Plan. Then, each year at annual re-enrollment time you have an opportunity to review your coverage choices and make changes, if needed.

You can also make changes during the year if you experience a qualifying life event. The Decision Guide available on the CAE benefits website contains additional details.

Two-year participation rule

Your health and dental care options are subject to a minimum two-year participation period.

- You must remain in the same option for at least two years before you can reduce your level of coverage by one option at a time.
- You may always choose a higher option during the annual renewal, but your new option will be subject to a new two-year period of participation before you may reduce your coverage.
